May 2-8, 2022 – EF2 Tornado and Flooding
- Seminole and NE toward Okmulgee, & Muskogee (7 counties)
- Presidential Disaster Declaration (FEMA DR4657)

RECOVERING OKLAHOMANS AFTER DISASTER

Making Homes Home Again

Established September 14, 2018

501(c)3 83-1952160

www.disasterROAD.org

Our mission is to build community resiliency across Oklahoma by providing hope to disaster survivors in Long Term Recovery through: project and volunteer management servicing home repair needs; awareness and advocacy; preparedness and mitigation services; all to vulnerable populations who have no means of recovery on their own.

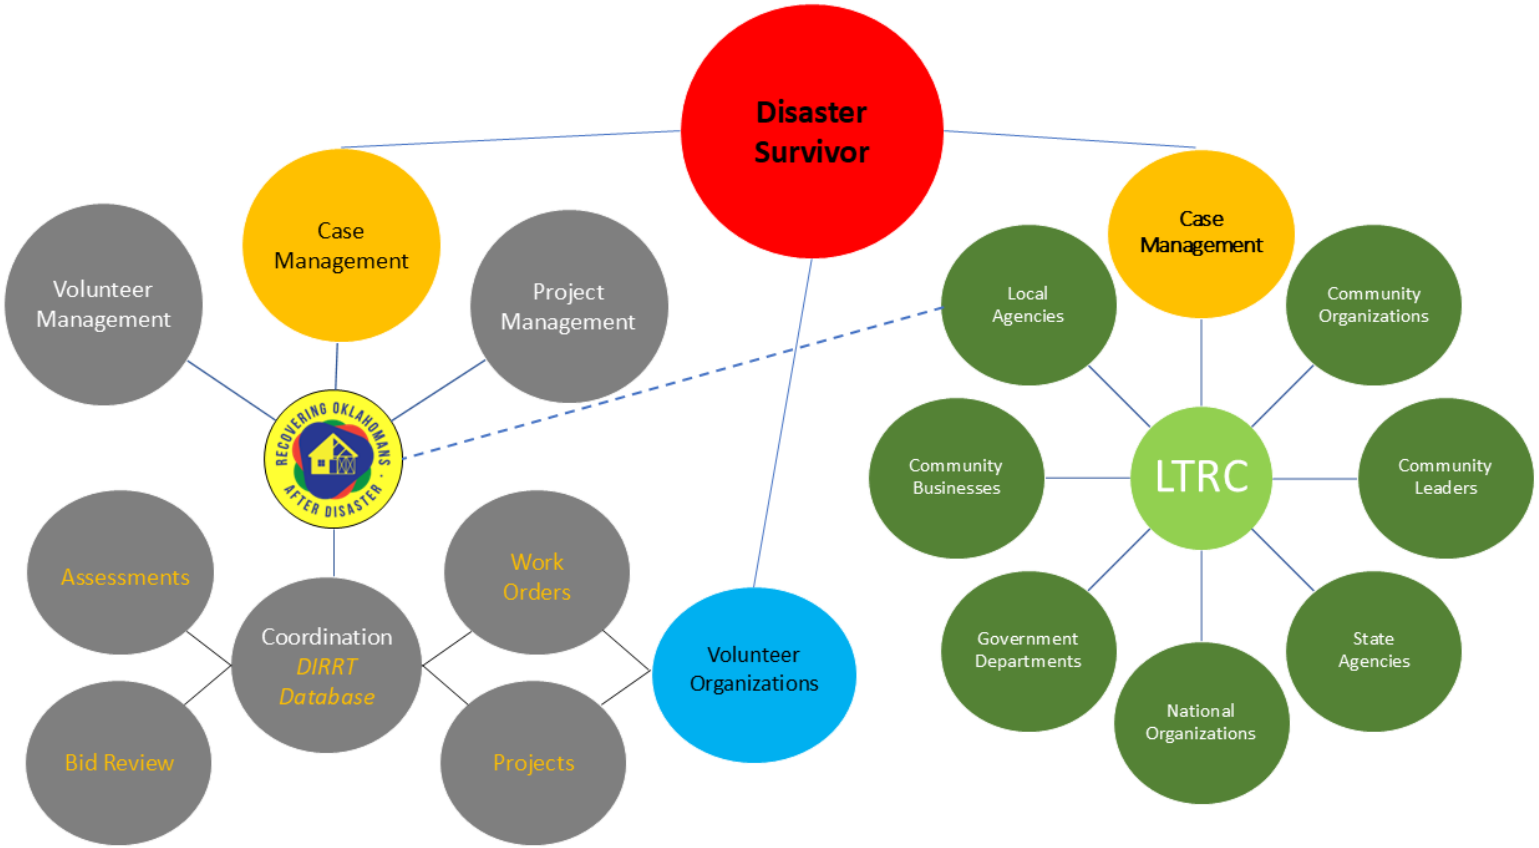

ROAD Services…

Centralized Logistics

ROAD is the center of all things home repair in a disaster across the state. ROAD maintains the DIRRT database where all Disaster Case Managers track their work orders, assessment requests, bid reviews, and funded projects.

ROAD provides all the assessments, bid reviews, and logistics for every funded project. ROAD Project Managers train and oversee the repairs done through our labor resources.

ROAD maintains partner relations with over 50 agencies as a member of the Oklahoma Voluntary Organizations Active in Disaster, “OKVOAD”.

RESPONSE

RECOVERY

ROAD Services…

Project Management

Our key service is providing the supervision needed to complete each home repair. Each project is vetted by a disaster case manager who qualifies the disaster survivor as having a true need they can not meet on their own. Our PM then assesses the disaster related damages which are in turn funded by a local Long Term Recovery Committee. When a volunteer team is scheduled, the PM will purchase and deliver the materials, along with a trailer full of tools, and provide all the project knowledge needed to make any team successful.

ROAD Services…

Labor Resources

Managing volunteers is a constant process of recruitment and coordination. ROAD recruits volunteers from across the country, secures lodging for the team, and ensures their stay is hospitable.

Volunteers have been the life blood for disaster recovery across the globe saving as much as 70% over the cost of hiring contractors to do the work. This has allowed donated dollars to stretch helping many more families than it would otherwise.

Volunteer Teams (partial list over last 2 years ranging from 2 to 50 volunteers)

- Mennonite Disaster Services, OK
- Christian Aid Ministries, OK
- Amish Disaster Response, OK
- Nebraska Power, NE
- SW Presbyterian Partners, IA
- First Christian, OK
- Island Mission 1-8, IL
- NOMADs, KS
- Sunrise Students, CO
- Cross Fellowship Church, CO
- Fuel Ministry, CO
- St Henry Watermark Mission, WI
- St Mary's, OK
- Redrock Habitat for Humanity, OK
- Franklin & Marshall College, PA
- Iowa State Univ. Assoc. of General Contractors, IA
- Concordia Univ., NE
- Sister-Corps, TX
- American Legion, OK
- Hilti, OK
- NCCC AmeriCorps, CO
- Texas Conservation Corps, TX

Vocational Training Apprenticeship Program

This program launched in November 2020 in partnership with the State Career Tech. The program is led by ROAD project managers and offers classroom instruction followed by On-The-Job instruction while repairing a disaster survivors home. At the end of the program each participant receives an official education certificate from Career Tech.

Labor Sources:

- AmeriCorps – federal program – paid by NCCC for 6-12 weeks.
- SBP – state level AmeriCorps program - cost share for 10 months.
- WorkForce –individuals who have a barrier to employment - paid by WIOA for 3 months.
- American Youth Works – state level AmeriCorps program – cost share 17 weeks.
