

WEST OF IRELAND KENYAN PARTNERSHIP

The Mayo University Hospital and Londiani Sub-county Hospital Partnership began in 2024, created by the hospital staff and Brighter Communities Worldwide in Kenya

The partnership is built on sharing knowledge, strengthening capacity, and improving health outcomes...

It demonstrates the power of reciprocity - showing how global collaboration benefits healthcare in both Ireland and Kenya ...

Through respect and shared learning the partnership improves healthcare, builds resilience, and equips healthcare workers to protect and care for those they serve.

Our focus areas: Mothers and babies, Emergency care, Non-communicable diseases, Community health systems

More information: Contact Eddie Conran
Interim Deputy Hospital Manager
