THEORY OF CHANGE

PROVIDE SAFE DRINKING WATER FOR CONFLICT-AFFECTED CHILDREN AND FAMILIES IN ORTESE COMMUNITY, GUMA LGA, BENUE STATE, NIGERIA

Our vision is a healthy, resilient and empowered community where every child and family has sustainable access to safe drinking water and lives with dignity.

Everyone.
Every home.
Every time.
Clean water changes lives.

INPUTS

- Funding and donor support
- Technical expertise and WASH specialists
- Community participation and local knowledge
- Partnerships with local authorities and stakeholders
- Tools, equipment, and WASH materials
- Existing data and baseline information

ACTIVITIES

- Community engagement and participatory needs assessment
- Rehabilitation and construction of boreholes and water points
- Water quality testing and regular monitoring
- Establishment and training of Water Management Committees
- Hygiene promotion and behaviour change campaigns
- Capacity building on operation and maintenance
- Monitoring, evaluation, and accountability

OUTPUTS

- Functional boreholes and community water points constructed/rehabilitated
- 2,500 people with improved access to safe drinking water
- Water Management Committees established and trained
- 2,500 people reached with hygiene education
- Local caretakers trained in O&M and minor repairs
- Regular water quality testing conducted
- Increased community awareness on WASH best practices

OUTCOMES

- Increased access to safe, reliable and affordable drinking water
- Reduced incidence of waterborne diseases (diarrhoea, cholera, typhoid, dysentery)
- Reduced time spent collecting water, especially for women and girls
- Improved school attendance and learning among children
- Women and girls have more time for education, livelihoods and leadership
- Stronger community ownership and management of water facilities

IMPACT

**HEALTHY CHILDREN
THRIVING COMMUNITIES
RESILIENT FUTURES**

- Improved health, well-being and quality of life
- Better education and opportunities for children
- Enhanced livelihoods and community development
- Stronger social cohesion, peace and stability
- Sustainable, climate-resilient and inclusive communities

WHO BENEFITS?

2,500
Direct Beneficiaries (Children, Women, Men, Elderly, PWDs, IDPs, Returnees)

8,000+
Indirect Beneficiaries in surrounding communities

Schools, Health Centres, Markets and Local Institutions

***"Water is life.
Clean water builds health, hope and a better tomorrow."***

LONG-TERM CHANGE: A future where every child and family in Ortese Community and surrounding areas has sustainable access to safe water, lives with dignity, and is empowered to build resilient, healthy and prosperous communities.

FOUNDATIONS FOR SUCCESS

COMMUNITY OWNERSHIP
Communities lead decisions and take ownership of solutions.

GENDER INCLUSION
Women and girls actively participate in all stages.

EQUITY & SOCIAL INCLUSION
No one is left behind. We reach the most vulnerable.

CLIMATE RESILIENCE
Building infrastructure that withstands climate and environmental risks.

PARTNERSHIP & COLLABORATION
Working with local authorities, partners and donors for greater impact.

ACCOUNTABILITY & TRANSPARENCY
We are accountable to communities and donors for results.
